PC Synergy Announces the Release of PostalMate 6

Advancement in Mail and Parcel Center Technology

San Marcos, CA — November 10, 2006 — After extensive development and beta testing, PC Synergy is excited to announce the release of version 6.0. With this release PC Synergy has introduced new database technology for PostalMate. This technology further enhances PostalMate's networking capabilities while increasing speed and ensuring product stability. PostalMate version 6 has been designed to move PostalMate users successfully into the future by ensuring compatibility with Microsoft's newest operating system: Vista.

New Features

New features will soon be available as decided by users at the PostalMate User Conference.

PostalMate 6 Availability

PostalMate 6 is available to current PostalMate users for download at www.pcsynergy.com. Those users on the CD plan can expect a CD shortly. Users must be on version 5.9 in order to run this update.

PC Synergy is a privately held company located in San Marcos, California. Founded by Rick Crawford in 1988, PC Synergy has over 2900 customers nationwide. The PostalMate software automates shipping and packing as well as integrates with CashMate+, a full featured Point-of-Sale, Accounts Receivable and Mailbox Management system. Visit www.pcsynergy.com or call 800-485-6901.
